NORTH-HOLLAND

Journal of Economics and Business 54 (2002) 659

Journal of Economics & Business

Volume 54 Title Index

A model for exchange rates with crawling bands—an application to the Colombian peso, 483–503

A note on government spending on infrastructure in an endogenous growth model with finite horizon, 651–654

Analysis of proposals for a minimum subordinated debt requirement, 115–136

Convergence of the gender gap over the business cycle: a sectoral investigation, 271–292

Cost efficiency among credit card banks, 595–614

Credit market development and economic growth, 219–237

Determinants of corporate growth opportunities of emerging firms, 73–93

Determinants of Japanese corporate pension coverage, 537–555

Differential impact of exchange rate on US trade with two major and two minor trading partners in Africa, 557–571

Federal funds rate target changes and interest rate volatility, 159–191

Fee versus royalty licensing in a differentiated Cournot duopoly, 253–266

Financial advising in the presence of conflict of interests, 55–71

Generation search costs and Ramsey pricing in a partially deregulated electric utility industry, 331–343

Inexperienced banks and interstate mergers, 313–330

Information asymmetry in disclosure of foreign exchange risk management: can regulation be effective?, 31–53

Insider trading and stock market perception of bankruptcy, 525–535

Level and growth policy rules and actual Fed policy since 1979, 575–594

Multiple bank lending and seniority in claims, 7–30

On the determinants of factoring as a financing choice: evidence from the UK, 239–252

On the efficiency of monetary policy rules with flexible prices and rational expectations, 615–631

On the term structure of interest rates and inflation in Japan, 505–523

Predicting large US commercial bank failures, 361–387

Price formation in the OTC corporate bond markets: a field study of the inter-dealer market, 95–113

Real wages and aggregate demand shocks: contradictory evidence from VARs, 389–413

Residential investment, macroeconomic activity and financial deregulation in the UK: an empirical investigation, 447–462

Some new results on interest rate rules in EMU and in the US, 431–446

Tax asymmetry, production and hedging, 345–356

The changing impact of employment announcements on interest rates, 415–429

The impact of managerial change on team performance in professional sports, 633–650

The stock market performance of the central banks of Belgium and Japan, 137–152

Tough love in risk management: the market as financial parent, 3–6

Using interest rate uncertainty to predict the paper-bill spread and real output, 293–312

Volatility clustering and nontrading days in Chinese stock markets, 193–217

Was money demand in the USA unstable before 1982? An application of the sup-F stability test, 465–481
